

Below is a list of the projects and the materials need for each project.

The State 4-H Office does not provide materials for the county projects with the exceptions to the companion rabbits and goats. Some materials that are "optional" which indicates it is not 'required' to complete the project. Check the 2017 State Fair Exhibit Requirements to see which manuals are required with the exhibits. The Ohio State Resource Handbooks need to be ordered only once. The member may use this manual throughout their years in 4-H. If manuals are updated, notification will be sent to ALL the county Extension offices. Some manuals that are only available online and members *MUST* download. These manuals are located at the 4-H website: http://www.colorado4h.org/project_resources/erecords/index.php#projman This document is arranged this document to accompany the publication order form which is located at: <http://www.colorado4h.org/enroll/PubOrderForm-self-calculating.xlsx> This is designed so it is easier for the county and/or club leader to order manuals for club members.
