If medication is required on any animal before or during the fair where exhibition of the animal will take place prior to the medications labeled withdrawal time the Superintendent of that division **must be contacted before medication** is administered and provided with written documentation by a licensed veterinarian. Every exhibitor who enrolls in a Market or Breeding Animal Project will sign a statement indicating their understanding and compliance with the Wholesome Meat Act.

Wholesome Meat Assurance Statement (*Market Poultry and Market Rabbit Only*):

Attention: The use by a non-veterinarian* of animal drugs or other substances in any manner other than in accord with the labeling approved by FDA is a violation of federal law. ***Note:** Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.

Any food animal must not exceed FDA/EPA/USDA established tolerances for any identifiable or unidentifiable foreign substance including drugs, pesticides, feed additives, or other chemicals. Violative results of residue testing are subject to investigation by USDA and FDA for prosecution. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or eggs will be considered fraud. Results of residue testing are subject to criminal investigation by USDA and FDA for prosecution.

"Certificate of Disclosure": Exhibitors, parents and club leaders of all market and breeding animals must certify their compliance with the USDA Wholesome Meat Act by completing and signing a "Certification and Disclosure Statement" when enrolling in 4-H or FFA. The Certificate will be available to members in the fall with enrollment materials. National Code of Show Ring Ethics (modified slightly to apply to all exhibits):

Exhibitors of animals at shows shall always conduct themselves with honesty and good sportsmanship. Their conduct in the competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all exhibits in any event at a show. In addition to the "IAFE National Code of Show Ring Ethics", fairs may have rules and regulations which they impose on the local, county, state, provincial, and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine examples. Owners, exhibitors, fitters, trainers, and responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds, and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and shows. Exhibitors who violate this code of ethics demean the integrity of all exhibitors and should be prohibited from competition at all animal shows in the United States and Canada.

The following is a list of guidelines for all exhibitors in competitive events:

- a. Misrepresentation of ownership, age, or any facts relating to your animal is prohibited.
- b. Owners, exhibitors, fitters, trainers, or responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or show officials.
- c. Youth exhibitors are expected to care for and groom their animals while at the fairs or shows.
- d. Animals shall be presented to show events where they will enter the food chain free of *violative* drug residues. The act of entering an animal in a show is the giving of consent by the owner, exhibitors, fitters, trainers, and/or responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals entered in

events, which culminate with the animal entering the food chain, shall not be administered drugs other than in accordance with federal, state, and provincial statutes, regulations, and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

- e. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from indicates the presence of forbidden drugs or medications, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of saliva, urine, blood, or other sample tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with burden of the owner, exhibitors, fitters, trainers, or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or show premises, all treatment involving the use of drugs, and/or medications shall be administered by a licensed veterinarian.
- f. Any surgical procedures or injection of any foreign substances or drug or the external application of any substance (irritant, counterirritant or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- g. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- h. Direct criticism or interference with the Judge, fair or show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all Judges, fair and show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- i. No owner, exhibitors, fitters, trainers, or absolutely responsible person shall conspire with another person or persons by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- j. This application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had knowledge of the treatment of the animal in contravention of this code of ethics.
- k. The act of entering an animal is the giving of consent by the owner, exhibitors, fitters, trainers, or absolutely responsible person to have any disciplinary action

taken by the fair or show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.

- I. The act of entering of an animal in a fair or show is the giving of verification by the owner, exhibitors, fitters, trainers, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorized with jurisdiction over such infractions.
